

MEMBER STUDENT EVALUATIONS GUIDE

Evaluations are tracked after every lesson to monitor student progress in a variety of different learning areas comprised of safety, physical skills, and knowledge. Evaluations help our teachers make appropriate lesson plans for each student based on their skill development, help parents see what skills their student is working on, and determine when a student has met the benchmarks required for certain programs. At H2O we do not pass or fail students based on their evaluations. Instead we use a progression scale to advance students at their own rate. At H2O Academy, we use our very own AQUA-Lit™ Curriculum ©. AQUA-Lit™ is H2O Academy's proprietary curriculum that focuses on teaching fundamental aquatic skills through building physical literacy. Our students are evaluated on fundamental aquatic skills directly from our curriculum and are rated from 1-4 on each skill based on their confidence, competence and understanding- the 3 main aspects of physical literacy.

A rating of "1" on an evaluation means that the student is not ready for this skill. The student does not meet the physical competence, confidence and/or understanding to perform this skill.

A rating of "2" on an evaluation means that the student is working on this skill and that it is appropriate for their current skill level. At this stage, they are working on building confidence, competence and understanding in this skill.

A rating of "3" on an evaluation means that the student has mastered most aspects of the skill. The student can confidently perform the skill and shows understanding most of the time.

A rating of "4" on an evaluation means that the student can confidently, perform the skill with consistency and with little explanation or guidance.

A student must have a "3" or "4" rating on an evaluation before moving onto the next skill in that specific learning area.

Evaluations are made public for H2O members to view before registration for the next term begins. Dates vary based on the seasonal calendar and length of the term, please subscribe to our emails and social media for specific dates each term. When an evaluation is made public, you will be able to view your student's evaluations and class recommendations from your Uplifter member account. Please see the next pages for step by step instructions on where to find your student's evaluations, class recommendations and benchmarks on Uplifter.

From the "Benchmarks" tab, you can see if your student has met any of the Shark Benchmarks required to register for a Shark class

Be sure to check out the different views to see which benchmarks your student has completed

Other Completed Achievements ✓		Benchmarks
★	2022-05-31	Mini/Kid Shark- Unassisted Standing Jump To Noodle (No SF)
🕒	2022-05-31 by Kayla McMurchy	
★	2022-04-23	Kid Shark- Back Pencil With Or Without Noodle (No SF)
🕒	2022-04-23 by Kayla McMurchy	
★	2022-05-31	Mini/Kid Shark- Five Bobs
🕒	2022-05-31 by Kayla McMurchy	
★	2022-05-31	Kid Shark- Front Pencil With Or Without Noodle (No SF)
🕒	2022-05-31 by Kayla McMurchy	

Please note that a student must meet ALL of the required benchmarks associated with their age group to be able to register for a Shark class in the following term. If a student is missing any of these benchmarks, they will only be able to register for the Splash program associated with their age group. If a member tries to register their student for a Shark program who does not meet the benchmarks, an error message will appear, preventing them from adding that class to their cart.

Last but not least, head to the "Message Board" tab to see a nice message from your student's teacher at the end of the term!

Kayla McMurchy

Great job this Spring Term Fake Child! You improved the most on your back starfish floats! With more help, you can improve your front flutter kick. I had so much fun swimming with you this term. Looking forward to seeing you in the summer!

Evaluations are made available for parents to view until the end of our registration period. Once the next term has started for the following season, student evaluations will be made private again for our teachers to accurately evaluate each student throughout the term. These evaluations will re-open to H2O members before the following term, along with any previous evaluations. For example, if your student swam in the Winter Term, but did not swim in the Spring Term, you will still be able to see your student's Winter Term evaluation before and during the Summer Term registration period. Alternatively, if your student swam in the Winter Term & Spring Term, you will be able to view both evaluations before Summer Term registration begins.

We hope that this guide assists our valued H2O members in understanding our unique evaluation process, and helps make the registration process easier for everyone! Thank you for swimming with H2O Academy this term!
